

Anti Spam Policy

Written by: Cardiff Creative

ABSTRACT

Policy about how Cardiff Creative handles SPAM matters.

Cardiff Creative – Anti Spam Policy

We maintain a strict zero-tolerance anti-spam policy. None of our products or services is promoted through any spam activities, including unsolicited emails, text or graphic postings in newsgroups, instant messenger mailings or any other kind of abusive marketing strategies.

Anti Spam Policy for Reseller

Do not consider the use of mass emails, any kind of newsgroup postings, instant messenger mailings, or any other kind of abusive marketing strategies! We have a strict zero-tolerance, anti-spam policy! We will not honour or pay for any traffic or sales resulting from spam activities such as those listed above. If we discover the use of any questionable marketing strategies to promote any of our products or services, your affiliate account will be terminated without warning; we will suspend all credits and we will add your full account information to a black list, which is available to numerous affiliate systems on the internet.

How to report SPAM to us?

As explained above, we neither maintain nor tolerate any kind of abusive marketing strategies. Notably we do not send any kind of unsolicited emails. However, in rare cases, it may happen that you receive Spam from third parties, who falsely believe that we may appreciate or tolerate to promote our products in such a manner. Although we carefully handpick our affiliates and marketing partners, we simply can't control the promotion strategies of all registered affiliates.

Therefore, we kindly request your help. Whenever you think you're a victim of an abusive marketing strategy in the name of our site, products or services, please contact us at service@cardiff-creative.com with all details.
